MAX 200 – MAX 300 – MAX 400 CLEANER ROBOT FOR SWIMMING POOL

Features

Line of robot cleaners MAX 200, MAX 300 and MAX 400 with the latest generation Aquatron technology for cleaning floors and walls in swimming pools up to 12 meters in length. Programmed with the AquaSmart guided system which ensures the optimization of the cleaning of the pool surface, both on the floor and on the wall. They include the electronic Gyro system to prevent the 18 meters of floating cable from deteriorating due to possible knots that can form during the cleaning cycles.

For cleaning the floor of swimming pools up to 80 m² with highly adherent PVA brushes. It is driven by two traction motors for maximum performance in tough conditions and an additional oscillating brush.

The filter of the MAX 200, MAX 300 and MAX 400 cleaners has the TOP ACCES - Easy Open system, a large basket, removable from the upper part with two handles, for simple washing of the filter.

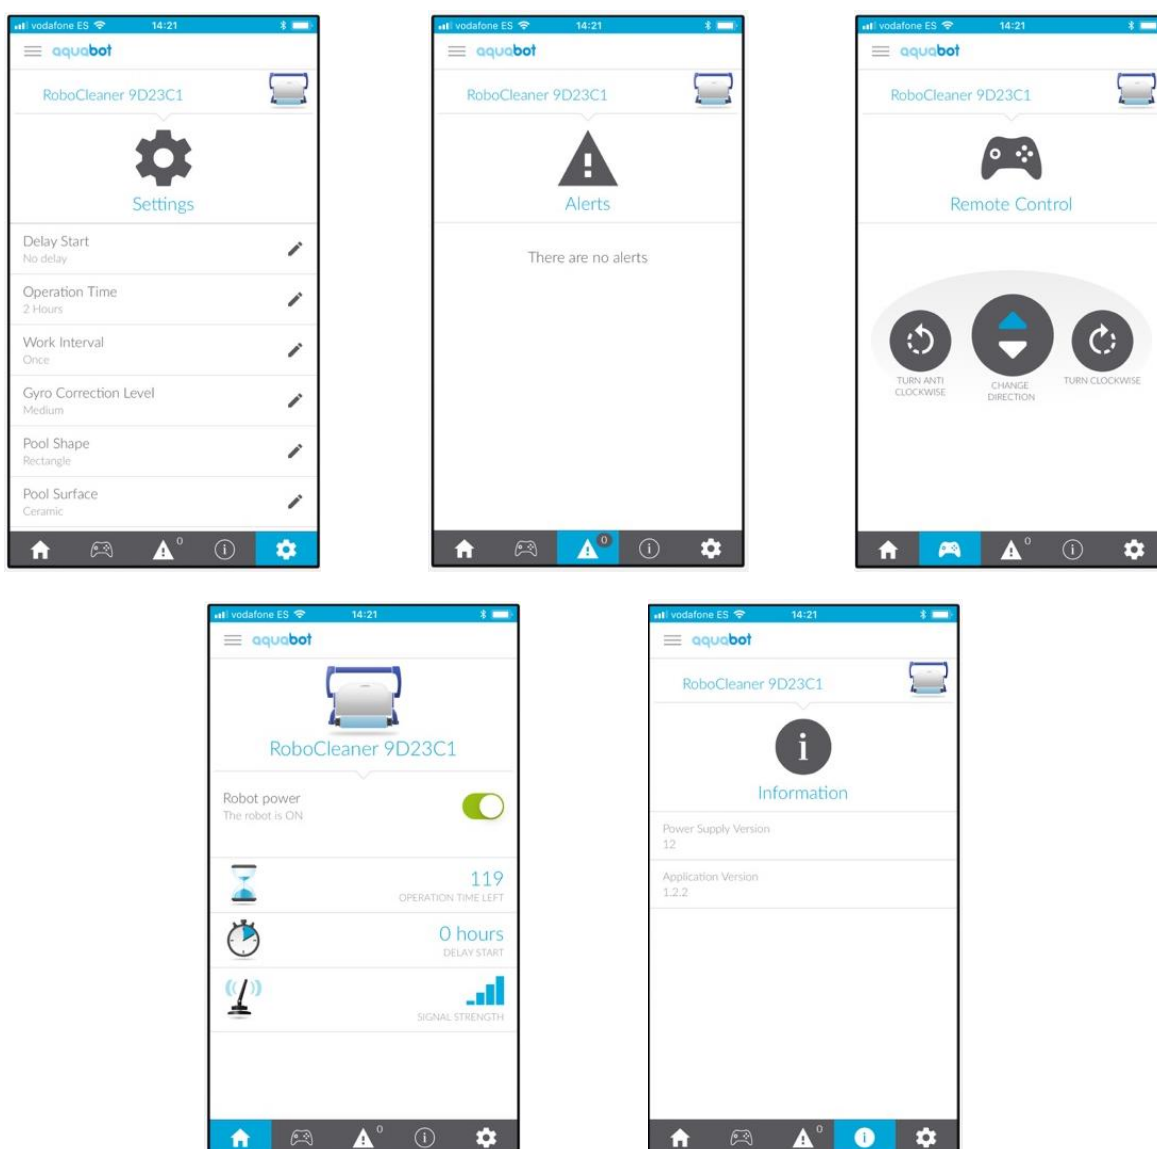

Model specifications

features	MAX 200	MAX 300	MAX 400
Swimming pool dimensions	80 m ² - 12 m	80 m ² - 12 m	80 m ² - 12 m
Floor	Yes	Yes	Yes

Application APP Aquabot RC – for MAX 400 only

With the new Aquabot RC application and via Bluetooth connection, available on the App Store and Google Play, your mobile phone will become a remote control that will allow you to:

- direct the robot
- program the start time
- program several cleaning cycles
- define the shape of the pool,
- receive alarms when the robot filter is full
- consult relevant information on the status of the cleaner, such as hours of operation, voltage, current, etc.
